

# NASAL MENTHOL PLUGS

NOSA nasal menthol plugs provide discreet and effective nasal protection against unpleasant odours for up to 8 hours. Their unique design allows users to breathe normally while simultaneously reducing odours with a refreshing menthol fragrance.

These plugs are utilized by thousands of healthcare professionals, law enforcement officers, and workers in various industries worldwide to improve working conditions in environments with strong odours. Developed by a Swedish nurse in 2016, NOSA nasal menthol plugs continue to be manufactured in Sweden to this day.
